**NEW LEGISLATURE  
WILL BE SOLIDLY  
BEHIND PINCHOT**

When He Becomes Governor,  
Not in Opposition, as  
Democrats Claim.

**LABOR AND FARM GROUPS**

Both Kathaustle in Support of the  
Pike County Leader, His Election  
Being in the Interests of Industrial  
Peace and Prosperity in the State.

PITTSBURGH, Oct. 10.—More and more as the campaign progresses and Republican candidates for both houses of the General Assembly at Harrisburg marshal themselves alongside of Gifford Pinchot and the platform he has set up as his standard for fulfillment during the next four years administration, it becomes increasingly evident that the new governor will have a full-sized working majority in the Legislature pledged to support him in the redemption of his pledges to the people.

Any doubt as to where the legislative candidates stood with reference to the Pinchot policies has been dispelled by the eagerness and unanimity with which they have come forward of their own accord to take their stand with Mr. Pinchot. This, swarming in with the gubernatorial candidate has been especially marked during the last ten days while the Pike county leader has been touring the western and northwest sections of the state. Heartening as it is to Mr. Pinchot himself, it has completely uprooted the guess of the Democrats who have been hesitatingly saying all along that the G. O. P. standard-bearer was going it alone without any semblance of prospective support from his legislative entourage.

With more than half the counties of the state visited to date by Mr. Pinchot in his strenuous statewide tour, the fact remains that more than half the Republican candidates for the General Assembly have come forward with unqualified pledges of support, in many cases of their own free-will and without any request on the part of Mr. Pinchot to state just where they stood. The good work continues with each stop on the Pinchot itinerary, and it is the expectation of the nominee that when he gets back to Philadelphia this week-end for a few days' rest before launching out on the final two weeks drive winding up his speech-making campaign he will have secured such a whole-hearted endorsement of his policies that he will have in hand an expression of sentiment on the part of the people of Pennsylvania through their chosen representatives tantamount to virtually the per cent approval of his legislative platform.

**Paving of Gibson  
Avenue Held Over**

Awarding of the contract for the improvement of Gibson avenue between Pittsburg street and York avenue, opened at the October meeting of Council Monday evening, held over for a week. The propertyholder petitioned for little but the proposal of M. D. Hagan for brick was \$84 below that of the Blumensol Paving & Resurfacing Company for willis.

**Rev. Blake to Hold  
Revival at Flatwoods**

Marking the beginning of an evangelistic campaign of two weeks, Rev. Day will be observed next Sunday at the Flatwoods Baptist Church, at which Rev. A. A. Blake is the pastor. The services will be in charge of the pastor. H. D. Shearer of Connellsville will have charge of the music. Sunday evening a male quartet from Connellsville will sing.

**Rotarians Feast at  
T. W. Dawson Home**

Special to The Courier.  
SCOTTDALE, Oct. 10.—Thomas W. Dawson was host to the members of the Rotary Club at a dinner last evening at his country home near town. Guests to the occasion included A. W. Smith and Harry H. Willock, Jr. of Pittsburg, who also were the speakers. Practically the entire membership of the club was in attendance. Music was in charge of E. D. Fuller, music supervisor in the Scottsdale schools.

**At Board Meeting.**

Mrs. J. French Kerr and Mrs. W. E. Clark went to Uniontown this morning to attend a meeting of the Mothers' Assistance Board of Fayette

**GUST OF WIND  
BLOWS ASIDE  
KLAN MASK**

GREENSBURG, Oct. 10.—A gust of wind played its part in bringing the first case in which the activities of the Ku Klux Klan were concerned, to the attention of the local authorities last evening, when Walter G. Jacobs of Alexander street, a taxicab driver, was given a hearing before Justice William J. Taylor in Haydensville to answer charges of disorderly conduct and unlawful assembly.

White robes, hooded, masked, and wearing the insignia of the Ku Klux Klan on their breasts, knocked on the door of the residence of Mr. and Mrs. T. E. Pratt in Fourth street, Youngwood, the evening of Sunday, September 24. They delivered their messages to Mrs. Pratt:

"Lady, we have been notified about you. The life that you lead is unbearable. We are warning you and we will be back."

As the spokesman uttered this threat, he drew a pistol. The Klansman's head drew hither. His mask was blown aside. He was recognized. A car stood at the curb into the automobile the Klansmen climbed upon the completion of their warning visit. The machine bore the license number 133-914. It is the number of the automobile owned by Jacobus, Mr. and Mrs. Pratt, says Jacobs is the man whose mask was blown aside and whose face they saw—the face of the spokesman of the Ku Klux Klan, on the occasion of the Sunday night visit.

Accordingly information was made against young Jacobs by Mr. Pratt, and the drama in which neighborhood gossip, bad feeling, and Klansman activity played their part, was unfolded in detail before Judge Taylor. Mr. Jacobs' defense was an attempt to prove an alibi.

Squire Taylor reserved his decision until 2 o'clock Saturday afternoon.

**MANY VIOLATORS  
HALED INTO COURT  
AND SENTENCED**

Forty-five sentences were imposed in court in Uniontown this morning, a number of them for violation of the liquor law, others for carrying concealed weapons and for various infractions. Those sentenced for carrying arms were mostly negroes.

H. Hornoff, Uniontown druggist, was sentenced to a fine of \$750 and six months in jail for selling a prescription known as alcohol, with the stipulation that if the fine and costs are not paid the prison sentence will be resumed.

John R. Marshall of Luzerne township did not fare so well. He was sentenced to \$500 fine and five months in jail, with the understanding that he will be released after serving two months if the fine and costs have been paid. Marshall made liquor for his livestock but eventually sold it for human consumption.

A fine of \$500 and costs and six months to the workhouse was imposed on Anton Kushlan of Brownsville, who must serve at least three months of the term specified. He will be released at the end of that time if fine and costs are paid.

Harrison Howard, negro, from Philadelphia, was warned by the court to steer clear of Fayette county, after he is released from prison. He was sentenced to \$700 fine and 10 months in the workhouse for selling "dope." The court informed him there were enough offenders here without any importations from the Quaker City.

William Howard, a negro, who established a tip pollman and from whom the officer took a revolver, was given a year to the workhouse.

J. L. Lockenby of Smithfield pleaded no defense and was sentenced to costs on a charge of operating a gambling device. Lockenby had been injured in a train wreck and after recovering he purchased a restaurant in which the alleged device was found.

**HIKING TO CUBA**

Dan Springer and Friends Reach Washington, D. C.  
Dan Springer, well known local young man, and several friends left Greensburg on Wednesday, October 1, on a hiking expedition to Havana, Cuba, according to word received here by his friends.

Springer sent a postal card from Washington, D. C., on Sunday, stating that they were going to spend the night in the capital and leave for port-au-Prince for Richmond, Va. According to Springer, they have only hiked about 15 miles all told being picked up by passing automobiles.

Three Die in Crash.

Mrs. Anna Kobowloski, her two-year-old daughter and Margaret Hatto, 15 years old, all of Monaca, were killed when the automobile in which they were riding skidded and crashed through a fence near Monaca last night. The other three occupants of the car escaped with slight injuries.

**MUST DECIDE TODAY**

Angora Government Given Until 5  
O'clock to Accept or Reject Con-  
vention Signed by Allies; British  
Prepared for "All Eventualities."

By Associated Press.  
MUDANIA, Oct. 10.—The Allied generals drew up their final armistice convention here last evening and submitted it to Ismet Pasha, the Turkish Nationalist representative.

The Ankara government was given until 5 o'clock today to accept or reject it.

By Associated Press.  
CONSTANTINOPLE, Oct. 10.—The signing of the protocol at Mudania is expected to take place at 5 o'clock this afternoon, according to an announcement by the Hagan agency, the semi-official French news organ.

Met at the pier on his arrival, General Harlington said:  
"The convention was submitted to the Nationalists last evening at Great Britain's last word. It now rests with Ankara whether the world shall have peace or war."

**School Children  
Enrolled in Fire  
Prevention Dept.**

Unsettled weather made it impos-  
sible for the city firemen to visit  
their village in the city schools and  
hold fire drills in connection with the  
national fire prevention week today.  
Yesterday, however, drizzle was held  
at the Crawford school on the West  
Side and at the Parkside school.

**Mrs. Wallace Demands  
Return of Billboard**

A dispute has arisen between Mayor Mitchell and Mrs. Katherine H. Wallace regarding a billboard placed by Wallace in the alley between the Wallace and Goldsmith buildings.

The mayor ordered the police to remove the board. Mrs. Wallace appeared at the meeting of Council Monday night and protested, threatening also to sue the city if the board is not replaced.

Attention of Council also was invited to the fact that Mrs. Wallace had been placed at the entrance to the alley. It was indicated that as long as they are not closed during the day there will be no action by Council. Several years ago permit was given to close the alley at night to improve the appearance caused by unsightly persons who frequented the place.

**Reward of \$5,000  
In Kaufmann Case**

PITTSBURGH, Oct. 10.—A reward of \$5,000 for information disclosing the whereabouts of Alfred Kaufmann, wealthy real estate dealer who disappeared from his home here last Wednesday, was offered by relatives today.

The last person who saw Mr. Kaufmann reported he appeared to be in a "dazed condition."

**WHAT HAVE YOU DONE  
TO MAKE CONNELLVILLE  
SAFER FROM FIRE LOSSES?**

Have you removed from all parts of your home or place of business all the old rubbish, waste paper and other fire-loading material, and taken pains to see that your heating appliances of every kind are in a safe condition?  
If you have you have taken the first step in fire prevention and contributed in part to the nationwide campaign to reduce the loss of property and lives by fire during the coming winter.

If you have not done these things, or more, you have yet a very important duty to perform, not alone to yourself but to your neighbors and the whole city.

**NEW LEAD POINTS  
AWAY FROM YOUTH  
IN JERSEY MURDER**

Authorities Less Sure That  
Clifford Hayes Slew Rector  
and Slinger.

**WOULD PROVIDE MOTIVE**

By Associated Press.  
SOMERVILLE, N. J., Oct. 10.—Nine-teen-year old Clifford Hayes of New Brunswick today admitted not guilty of murdering Dr. Edward William Hall and Mrs. Eleanor Hubbard Mills and was held by justice of the Peace Simpson without bail for grand jury action.

Authorities who announced with a show of confidence on Hayes' arrest yesterday that the motive had been solved evidenced less satisfaction with the case today.

One of the investigators said another lead was being worked upon which, he believed, would change the entire complexion of the case. This lead, he added, pointed away from young Hayes and appeared to provide a motive that would explain the mad slaying of Mrs. Mills' throat in addition to the bullet wounds.

Raymond Schneider, on whose accusation Hayes was arrested still was held as a material witness and was being questioned in an effort to clear up discrepancies in his testimony as compared with facts established from other sources.

Another discrepancy to which the authorities were giving much attention was Schneider's statement that Hayes did the shooting at about 1 o'clock on the morning of September 15.

A half dozen other witnesses have sworn in giving the time at which they heard screams and shots a between 10 and 11 o'clock the night of the slaying.

When Prosecutor Beckman was asked if he had eliminated all other persons from consideration in the case he said:

"If we have not, we are checking up following an event, but we have. Things are beginning to look different."

Asked if he had anything bearing on the killing of Mrs. Mills' throat he said:

"I have something," he added he did not propose to show his hand.

**Store Managers to Meet.**

The Union Supply Company store managers and wholesale representatives will meet at the H. C. Erick Company's Continental No. 1 of First Wednesday for the purpose of purchasing fall and winter merchandise.

Comfort for Firemen.  
City Council plans to install a modern heating system in the West Side fire station. The purchasing agent will ask for bids.

**Housing Corporation to  
Erect 25 Homes Planned  
By Chamber of Commerce**

At a meeting of the Chamber of Commerce executive committee and the housing committee held last night, the growth of the city and the housing problem has been discussed. The proposition of erecting houses for the housing shortage problem.

No bid for the houses will be asked until the money to erect them has been secured. The proposition, founded and backed by the Chamber of Commerce, is considered a sound one and will be considered steadily along business lines. The houses will be built in a row, a downing the contractor to complete all material at one place and the fact that they will be standardized will also reduce the construction costs.

Present plans call for five rooms and a bath in each. There will be nothing elaborate, but each will be equipped with all modern conveniences. It is estimated that the houses will cost on the average of \$2,700 each, but to include the purchase of the land on which they are to be erected. No location for them has yet been secured but there are numerous desirable sites.

The committee had another proposition under consideration but it was not adopted when the success of erecting the housing corporation met with a veto.

Persons interested in the proposition are a good to communicate with C. T. Koppner, president of the Chamber of Commerce, or A. B. Norton, Jr., the secretary.

The Youth river race during the night from 50 to a foot to 71 of a foot.

candidate for United States govern-  
ment, Senator Samuel A. Kendall and  
possibly some of the legislative  
candidates of the county. Committee  
in charge of the Connellsville recep-  
tion are planning to give a greater  
demonstration than at any other point  
in the county on the occasion of the  
visit of the state standard-bearer.

Judge J. Q. Van Swearingen will  
preside at the meeting here. Mrs. J.  
M. A. Davis, wife of the Hon. David  
J. Davis, will be in charge of the  
reception. The committee will pre-  
pare at the meeting at Grafton, Mr.  
Pinchot will be the first speaker, to  
be followed later by Colonel David J.

MINISTERS  
RETURNED**

Rev. Dr. Bennett W. Hutchinson was  
returned as pastor of the First M. E.  
Episcopal Church of Connellsville  
in the assignments announced at  
the close Monday evening of the 1921  
annual session of the Pittsburgh  
Conference, held in Pittsburgh. The  
church had asked his return.

**FUEL DISTRIBUTOR  
ASKS MOVEMENT OF  
COAL BE EXPEDITED**

Urges Full Co-operation With  
Transportation Com-  
mittee's Plans.

Special to The Courier.  
WASHINGTON, Oct. 10.—An appeal  
to coal producers to assist in ex-  
pediting the movement of coal by load-  
ing cars, to carrying capacity and by re-  
fraining from the loading of coal into  
cars for which they have no billing,  
was made today by Federal Fuel Dis-  
tributor C. E. Spens, Receiver of  
coal at Union, cars immediately  
upon arrival. Coal shippers are  
requested to confine their operations  
as far as practicable to their normal  
sphere of distribution in order to  
reduce the amount of transportation  
service now required. Consumers are  
asked, if the coal is available, to con-  
fine their purchases to the grades of  
coal to which they have been accus-  
tomed. Mr. Spens' statement follows:

"The advisory committee on trans-  
portation, appointed by the federal  
government, issued on October 5,  
1922, a recommendation to the  
chief executives of all railroads, rela-  
tive to the adoption of certain prac-  
tices or plans, which will make for a  
greater supply of coal car equipment.  
We have already received responses  
from a number of the railroads to the  
effect that they will cooperate to the  
limit along the lines recommended by  
this advisory committee.

"The public, however, should appre-  
ciate the fact that today there are un-  
usually heavy offerings of traffic of  
all character to the railroads, and  
aiding from the general priority orders  
of the Interstate Commerce Commis-  
sion that now obtain, we are hoping  
it may not become necessary to recom-  
mend any action that might interrupt  
the transportation of other commodities.  
The priority orders now govern-  
ing the handling of coal equip-  
ment are, of course, already interfer-  
ing to some extent with the movement  
of commodities that are equally load-  
ed in this class of equipment, but it  
is our great desire that there should  
be no greater interference with gen-  
eral transportation than appears to  
be absolutely necessary to care for  
the coal emergency.

"An analysis of the present coal  
transportation production and present  
reserves clearly indicates that for  
some weeks still to come the com-  
modities covered by priority orders,  
particularly coal, must be given ex-  
traordinary attention.

"We are confident the matter has  
been placed before the carriers in  
such a way that they are fully alive  
to the situation, and, in spite of the  
existing handicaps, will do their ut-  
most to accomplish their proportion  
of the burden.

"Coal producers and coal receivers  
can assist to a very large extent. Pro-  
ducers should load cars to carrying  
capacity, and should not load coal ex-  
cept to fill orders, on hand; in other  
words, they should not have unbill-  
ed cars on hand at mines, which practice  
is common under normal conditions,  
nor should coal be billed excepting to  
bills which will permit of making coal  
available out of coal equipment  
warehouses out of coal equipment.

Receivers of coal should arrange to  
unload cars immediately upon arrival.  
"During the miner's strike, the nor-  
mal distribution of coal naturally be-  
came disrupted, involving greater  
hauls, and consequently greater time  
was consumed in the transportation  
of loads and the return of empties.  
Now that production of mines in all  
districts has been resumed, each re-  
gional district should, so far as it can,  
practically do so, arrange to confine  
its operations to its normal sphere of  
consumption, thereby avoiding cross  
hauling of coals, and reducing the  
amount of transportation service as a  
normal minimum, which will make  
for a greater supply of cars. Coal  
shippers should, if coal is avail-  
able, confine their purchases to the  
grades of coal to which they have  
been accustomed.

"It has been suggested that to ac-  
complish this purpose, it will be  
necessary to re-establish the zoning  
plan that obtained during former  
emergencies. We dislike, however,  
unless it should become absolutely  
necessary, to inaugurate restrictive  
regulation of this character, believ-  
ing that the operators themselves will  
appreciate the mutual benefit to them-  
selves, the carriers and the consuming  
public, by complete compliance  
with this recommendation as may be  
practicable.

"Current production only negligibly  
exceeds current consumption. There  
are no important reserves. We stren-  
uously trust the existing severe  
weather, generally prevalent, will not  
bring on an unusual increase of the  
critical situation that might arise, the  
event of an early change in climatic  
conditions."

**LOCAL RELIEF WORK  
BY RED CROSS HELD  
CHARTER VIOLATION**

WASHINGTON, Oct. 10.—The Amer-  
ican Red Cross was warned by its  
secretary, Mabel Boardman, speaking  
at today's session of the annual con-  
vention, against departure from the  
charter purpose of relief work in  
emergencies.

She declared the charter under  
which the organization operates au-  
thorized it to work for the relief of  
sufferers from war and great disas-  
ters. She added that a continuation  
and expansion of local relief work  
social service and related lines of ac-  
tivity would render the society liable  
to revocation of its charter.

John Barton Payne, chairman of  
the society, introduced in an address  
that he was wholly in accord with  
the views of the secretary.

**Police Arrest Two  
More Bootleggers;  
Each Is Fined \$100**

Another arrest under the law of  
Prohibition was made in the city this  
morning when two men, charged with  
the illegal possession of intoxicating  
liquor were picked up by Patrolmen  
Andrew Thomas and L. M. Rist. The  
men were located in West Grape al-  
ley, where they had parked an auto-  
mobile.

Both were given hearings this  
morning and fined \$100 each. Neither  
had the money to pay and they are  
being held at the police station. The  
automobile has also been confiscated  
and is being held at a local garage.

In the car were found two wooden  
kegs of moonshine and also a jug of  
the same beverage. Another jug was  
empty. The police believe the men  
were awaiting an opportunity to de-  
liver the load. The arrests were made  
about 3:30 o'clock this morning.

Two men, charged with being drunk  
and disorderly each paid \$25 fine  
when given hearings this morning.  
Four others, arrested for being drunk  
or disorderly or on the combined  
charges, were fined \$10 each.

upon arrival. Coal shippers are  
requested to confine their operations  
as far as practicable to their normal  
sphere of distribution in order to  
reduce the amount of transportation  
service now required. Consumers are  
asked, if the coal is available, to con-  
fine their purchases to the grades of  
coal to which they have been accus-  
tomed. Mr. Spens' statement follows:

## OUR REGISTRATION.

The falling off of 20 per cent in the registration of voters in Connelville is not surprising, in view of the lack of interest in things political which is the condition generally over the state. A year ago we had a majority campaign with several unusual phases to beset the voters to activity. In 1932 a presidential election attracted the attention of the whole country. It was natural, therefore, that this, which is regarded as an "off year" in politics, would not excite voters to the same degree as either of the years immediately preceding.

That there was not even a greater falling off in registration is proof that the electors of Connelville have rather more concern about the discharge of their duties at the polls than those of many other communities where much larger percentages of eligibles failed to qualify. Our voters realize more fully than do those of other districts that the election this fall is actually more important than that of last year or the preceding year. Never before have voters had the opportunity of choosing at a single election a governor, members of the General Assembly, two United States Senators and a full delegation in the National House of Representatives. Never before has the necessity arisen for the friends of popular education to rebuke at the polls a candidate for the most important office in the state for his assaults on our program of making all the advantages and benefits of the public school available to the humblest child in the state.

This issue alone invests the forthcoming election with an importance which is greater even than that of a presidential election. The matters concerned in the choice of state officers and representatives come closer to the people and more intimately concern their material welfare and the state's progress than does the election of a national chief executive.

While it would have been still more creditable to the city to have equalled or surpassed any previous registration on the fact that 80 per cent of the persons who registered a year ago again qualified to exercise the right of franchise, Connelville is a distinction that cannot be claimed by most towns where there was still more general failure to turn out on registration day.

## FIRE PREVENTION AND YOUR DUTY.

The appeal being made to householders and property owners to take part in Fire Prevention Week, to the extent of removing all rubbish, waste materials and anything that may be the starting or spreading of a fire, is with a view to protecting you and your neighbors from the loss and danger incident to fires. Property owners should respond to the appeal for business reasons as well as out of desire to discharge their full duty as good citizens. No matter how much insurance you may be able to carry it will not reimburse you for the loss resulting from even a partial destruction of your home or place of business. Preventing a fire means saving money and money saved is, by the time tried, money earned.

Further, you owe it to your neighbors to afford them the same protection from fire that they owe you. If you are negligent in this matter, by allowing fire hazards to develop in or about your home or place of business, you are disregarding your neighbor's rights just as much as if you maintained conditions which tended to breed or to propagate dangerous and contagious diseases. In that case you could be proceeded against under the law and be made to pay the penalty or neglect. No good citizen would allow himself to become such a danger to his neighbors as to endanger the health of the community.

Have you not the obligation to protect your own and your neighbor's property from damage or destruction by fire?

That is the aspect of the fire prevention campaign you are asked to consider, and considering, to act thereon as prudent regard for others will prompt you as in the case of preventing the spread of disease. To do so requires but very little effort or time on your part. A few hours at most will enable you or a person in your employ to rid your premises of all the inflammable waste materials which have been accumulating for some time. This and a thorough in-

spection of all heating appliances to see that they are in safe condition is about all there is to the fire prevention precautions. But, if attended to, it is enough to cause you to feel satisfied with having done your duty in a very important matter with respect to yourself, your neighbor and your community.

It will be most unusual if the slackers on registration days are not found to be those who kick the hardest about the failure of voters to clean up the rottenness in politics.

In the observance of Fire Prevention Week some inventive genius ought to take time to perfect an automatic device for preventing activity by fire-bugs.

Pinchot and Pepper are making the campaign altogether too hot to suit the tastes of the opposition.

The wise automobile owner, like the wise voter, will register for his license early to avoid the rush.

## SHE NEVER GAVE ME A CHANCE.

It happened that I came along as school was letting out. And laughing boys and smiling girls ran all over me. But two there were who walked along the road in front of me. And one young head was bowed to earth in trouble and was low. And as I stopped around the pair to listen on my way:

"She never gave a chance to me!" I heard the youngster say.

Oh, I have been a boy myself, and I have been to school. And I have suffered punishment for breaking many a rule. I've worn the brand of misbehavior and been written down as bad. So I could understand the scene—the teacher and the student.

The swift, advancing punishment, the stern and angry glance. The blot of shame upon a boy, sent home without a chance.

I did not stop to ask the lad his little tale to tell. There was no need of that because I knew the story well.

"She never gave a chance to me!" that sentence held it all. A hundred times I've lived the scene in days when I was small. A teacher's frown, a teacher's look, a teacher's judgment, blindly made—a youngster sadly wronged.

I still can see that little chap upon the playground. "She never gave a chance to me," I still can hear him say.

And so I write this verse for him, and all the girls and boys who shall their future now and then disturb with needless noise.

Be fair, you teachers of our land, to every circumstance. Don't let some little fellow say he never had a chance.

## The State and the Schools

Philadelphia Ledger.

During the political campaign now in progress the educational policy of the state has been more frequently under discussion, perhaps, than any other one subject. The Democratic candidate for governor, following the lead of the granger organization of which he happens to be the head, has been persistent in his attacks upon what he calls "finagling" and has misrepresented the present management of the public schools, so far as the state is concerned in management, as a sort of attorney which has deprived the local educational authorities of all control of the schools.

And even Mr. Pinchot, while fully supporting the policy of as generous support of the schools as the state finances will permit, has talked of "centralization" as though there was a real grievance against the present system awaiting for correction. In this matter the Public Ledger is content that Mr. Pinchot has been misinformed and that he will find out, when the professional experts to whom he has called for aid and advice shall have made their report, that the local boards possess all the power they ever had and that the reckless allegations of interference from the state are a smoke screen to conceal the real motive of the attack on the state school system, and that real motive is opposition to the increased appropriations for the support of public education made by the last Legislature. Two points seem to need emphasis: first, whether the state can afford the outlays essential if Pennsylvania is to be lifted from the estate into which it was allowed to fall, and, second, whether what it is now expending can truthfully be described as excessive when compared with the records of other states less wealthy and prosperous than our own.

An examination of the records will demonstrate that Pennsylvania is amply able to do even better than it is doing toward assisting in paying to the teachers adequate salaries for their work, and that it must do even more than it is doing if it is to reach a position comparable to that attained in educational progress by the great majority of the other states of the Union. The studies will find in the proceedings of the commission for the revision of the Constitution a valuable mine of information in the form of reports to the commission on these points. In these it is shown, for example, that in 1913 only nine states expended less per capita than Pennsylvania, and all of these were in the south. Many states expended as much as Pennsylvania. Whereas the per capita amount for this state was only \$3.32, as against \$5.32 for New England, and New Jersey \$6.85.

Voters are asked to elect Mr. McSparran on the strength of the demon-

F. S.: "I DON'T WANT TO BUTT IN, BUT—"

By MORRIS

clations of liberal state support for the schools—for that is the real meaning of what he calls "finagling." Let them contemplate these figures: Pennsylvania in 1913 paid only 10.32 per cent of the total income for the public schools, and only nine states were below us in this respect; the salaries of Pennsylvania's main teachers were 25.3 per cent lower than the average for the whole United States, and 32.3 per cent lower for women teachers; a smaller proportion of the school population than in the more progressive states and the classes were larger.

It was to remedy these flagrant conditions, to lift Pennsylvania from the 38th place in per capita expenditure and from the 39th place in the proportion of total school support furnished by the state, that Governor Sproul, the Legislature and Superintendent Pinchot have labored for the last three years. The progress made has been most encouraging, and the people of Pennsylvania will not wish their eyes upon period that progress to be retarded or any backward step taken at the instance of backward districts or of selfish interests which begrudge the money spent on the schools in the fear that they may no longer be enabled to escape a fair share of taxation.

Wise Constitution. Ambrose Time. Constantine seems to know an exit when he sees it.

### NATURAL MISTAKE TO MAKE

Name Mentioned Surely Signified Nothing If Not the Presence of Some Dignified "Frau"

"You can have too much of anything even roses," said the visitor to the woman. "The friends I was staying with were botany heads. I like flowers, but I can't dissect them and label them with foreign names. We were out riding, and had come to a beautiful garden. They stopped the car and talked botany for what seemed hours."

"I was quite drowsy, when suddenly my seatmate, leaning across me called out 'There's Frau Karl.' 'Where?' asked the one at the wheel, halting the car. 'There! There!' in that garden, along the path to the left, explained the third, while I craned an inquisitive neck to see the dignified and portly dame their enthusiasm made me expect to find strolling in parasol shade leisure through her grounds. 'How perfectly wonderful to run across a friend so accidentally!' said I, relieved at the change of conversation. 'Do let's stop for a moment to call on her.' Whereupon five sets of eyes surveyed me with amazement. 'Call on her?' cried the even owner at all at once. 'On her? Why, it's a rose we can't a Frau Karl Druschki!'" —Chicago Journal

### Mystery of Trees

One of the most puzzling questions in botany is "Why do some trees live to the top of a tree?"

Various explanations of the phenomenon have been proposed, but none is regarded as altogether satisfactory. One investigator attacked the problem by means of interesting and novel experiments. For instance he constructed an artificial tree of plastic of pines and found that water moved upward in it more than 40 feet high. Yet he was unable to base any definite conclusion upon the results that he obtained. The water travels a large part of the way in a film, between bubbles on the one side and the wall on the other. But the physical properties of the film are yet unknown.—Washington Star.

## Third Generation is Using Syrup Pepsin

No other Laxative can replace Dr. Caldwell's Syrup Pepsin.

There are thousands of healthy, robust young men and women who have never in all their lives taken any other laxative for constipation than Dr. Caldwell's Syrup Pepsin. Their parents were given it by their parents, the grandparents are using it today. It is the one laxative ideally suited to all the family, safe for the little ones, effective in grownups, so compounded that elderly people, who are constantly forced to take a laxative because the intestinal muscles are weakening, find increased dosage unnecessary. This wonderful constipation remedy has been used continuously for 30 years, and over 10 million bottles are now sold annually, the largest selling family laxative in the world. The cost averages but a cent a dose. Every druggist sells it, and under a guarantee to do as a lined or your money will be refunded.

Millions of carefully conducted tests are never without a bottle of Dr. Caldwell's Syrup Pepsin.

### ANY FAMILY MAY TRY IT FREE

"Thousands of parents are asking themselves: 'Where can I find a trustworthy laxative that anyone in the family can use with confidence?' I urge you to try Syrup Pepsin. It is the one laxative ideally suited to all the family, safe for the little ones, effective in grownups, so compounded that elderly people, who are constantly forced to take a laxative because the intestinal muscles are weakening, find increased dosage unnecessary. This wonderful constipation remedy has been used continuously for 30 years, and over 10 million bottles are now sold annually, the largest selling family laxative in the world. The cost averages but a cent a dose. Every druggist sells it, and under a guarantee to do as a lined or your money will be refunded."

Mr. J. B. Balk of Shaw, Miss, writes on Oct. 10, 1933, that he and his children in health, and Mrs. Catherine Connelly of Jersey City, N. J., declares that not only herself but all her neighbors and friends use it and tell others about it. There is scarcely a day that someone in a family does not need it for constipation, flatulence, auto-intoxication, biliousness, intestinal poisoning, headache, colic and cramps, and to break up fevers and colds.

Dr. Caldwell's Syrup Pepsin is a scientifically-balanced compound of Egyptian senna with pepsin and pleasant aromatic flavors. The formula is on the package. As the popularity of this natural vegetable laxative increases, the public demands the purer physics like colored, confectionery candy form, suit waters and powders. Dr. Caldwell's Syrup Pepsin empties the bowels more cleanly and without any danger.

## Miners' Camps Breaking Up as Winter Nears

HARRISBURG, Oct. 10.—State health authorities looked for most of the miners' camps in Western Pennsylvania to be closed up within the next fortnight. A general check of the camps has been made and, excepting Somerset and Washington counties, indications are they will close with the approach of cold weather. While some camps are getting new people, owing to conditions, the number of tents is decreasing as families move to other fields of the coal region or men are going to other lines of work.

PITTSBURGH, Oct. 10.—Frame barracks will replace tent colonies of striking miners in the Fayette county region and in Greene county, under plans recently announced by union leaders. Scores of evicted families have been living in tents in Fayette since the strike started but with cold weather in the offing the union has started erection of the barracks which will be ready for use before the first snow.

The evicted families in Somerset county will continue to occupy tent colonies, union leaders declared.

## Unemployment Now At Normal in State

HARRISBURG, Oct. 10.—The unemployment situation in Pennsylvania has reached its normal stage again, Commissioner Clifford B. Connelley of the State Department of Labor and Industry announced today in making public the October 1 reports of state employment offices.

The eleven state offices reported a total of 65,652 persons unemployed. The commissioner declared that "in normal times there is always an army of 50,000 or more in this state who are unable to find work." In several lines the reports show shortages exist.

Generally, industrial establishments are affected by shortages of various classes of labor with the common labor shortage of the most pronounced. Wages have gone up to as high as 50 cents an hour in some sections, with 40 cents a ruling rate in others.

Further resumption of mining activities is reported from the coal districts. The coal shortage is a big factor in the mining and shipping of coal and there is decided lack of motive power to move the coal. "The normal times there is always an army of 50,000 or more in this state who are unable to find work." In several lines the reports show shortages exist.

Additional demand for "white collar" workers is shown in the various reports. Demand for clerical and office help is reported together with increasing orders for salesmen and women.

Whalen Lectures End.

Dr. H. J. Whalen of Greensburg delivered the last of a series of lectures on Baptist history last night at the Pleasant Baptist Church. He covered two subjects, "The Baptist Church" and "The Baptist in America." He had previously delivered three lectures.

## A UNION OF INTEREST TO WOMEN

### Healthy Housewife—Happy Home

Lydia E. Finkham's Vegetable Compound Has Helped Form Many

For the ailing, half-sick housewife such a union of interest to women times even the slightest form of housework cannot be accomplished. Yet the work must be done.

Many women struggle along for years suffering from some form of female trouble that makes their lives miserable and their homes far from happy.

Lydia E. Finkham's Vegetable Compound has helped thousands of just such women regain their health and strength. Just give your thought to the following letters and remember that the women who wrote these letters knew how they felt before taking the Vegetable Compound and again afterwards. It helped them—let it help you.

**Had Nervous Spells**  
 "Terrible, Ark.—I had nervous spells and awful bad feelings. My right side and my back hurt me all the time and I had been going down in health for six or seven years. For three years I had not been able to do my work without help. I weighed only 85 pounds when my husband's mother persuaded me to take Lydia E. Finkham's Vegetable Compound. Now I heartily recommend it to all suffering women, as I have gained weight and health. I can do all my work, anything I want to do."—Mrs. J. B. Martin, Horatio, Arkansas.

**Recommend the Vegetable Compound**  
 New Orleans, La.—"I have found relief from my troubles by taking Lydia E. Finkham's Vegetable Compound and I praise it whenever I can. I could not do my work, as it was done for me. I would sometimes have to lie down because of the pain in my back. I have gained weight and health. I can do all my work, anything I want to do."—Mrs. J. B. Martin, Horatio, Arkansas.

**Present Reality.**  
 "Oh, why should we then, dearest recall? We read upon the morning page Of life who can but the ball."

## GALLATIN GARDEN.

Lovers of good dance music have a treat in store on Thursday night when Paul Whiteman's Orchestra appears at the Gallatin Gardens, Uniontown. Although Mr. Whiteman will not be with the orchestra, it is under his direction and plays all Whiteman arrangements. The orchestra uses the same instrumentation as the Palais Royale Orchestra. A. G. Mitchell, who is Mr. Whiteman's musical arranger, is the director of the orchestra. The orchestra is composed of 15 men playing 22 instruments. This is the largest and highest priced orchestra ever booked in Fayette county and all attendance records will be broken. The orchestra is a combination of real artists and is bound to please the most skeptical. The hours are from 9 to 1.

## Kidney and Bladder Troubles HAVE TO GO

Clogged Up Kidney Deposits Are Dissolved and the Toxins (Poisons) Completely Driven Out; Druggists Told to Guarantee It in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous Prescription No. 777 (known for years as Marshbrook) is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bloating, irritability with loss of flesh, or any other tendency to Bright's Disease, Diabetes or Gravel, for kidney disease in its worst form may be stealing upon you.

Don't wait until tomorrow to begin the use of this wonderful prescription now obtainable in both liquid and tablet form if you have any of the above symptoms. Kidney and bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfailing certainty. If you even suspect that you are subject to Kidney Disease, don't lose a single day for Conneltsville Drug Co. and every good druggist has been authorized to return the purchase money on the first bottle to all who state they have received no benefit.—Advertisement.

## Belgian Court Assesses Strikers for Damages

LONDON, Oct. 10.—A curious strike has been settled at Minge, near Mons, according to the Brussels correspondent of the Times. An agreement was arrived at some time ago between the glassworkers there and the employers, by which the men were accorded a rise in wages on condition that they steadily maintained their normal production.

For some time everything went well, but recently the men again demanded an increase. This was refused. The trade union leaders then ordered all the men deliberately to reduce their output by 40 per cent, in order to force the masters to give in to their demands in the face of the foreign competition. The workers did this. In reply, the employers brought every one of the 350 "cat" canny" strikers before the district court.

The court has decided in favor of the employers and ordered the men to make good the loss caused through their deliberate reduction of production. Experts appointed by the court have fixed the damage at 150,000 francs (about \$3,000), so that each workman will have to pay more than \$28.

## Confluence

CONFLUENCE, Oct. 10.—Frank Gerhard of Kingwood, district deputy grand master of the I. O. O. F. in Somerset county, installed the following officers in the local lodge: Past grand, C. R. Brown; noble grand, J. H. Woodman; vice-grand, John L. Turney; secretary, G. A. Frantz; treasurer, Samuel Grant; chaplain, W. A. Burnworth; warden, S. B. Grant; conductor, Irvin Fortney; right supporter to the noble grand, Grant Fyle; left supporter to noble grand, E. S. Rogers; right supporter to vice-grand, Ray Knight; left supporter to vice-grand, Gilbert Butler; outside guardian, S. A. Crawford; inside guardian, H. P. Burnworth; right scene supporter, T. Z. Burnworth; left scene supporter, William Recknor; trustee for 18 months, M. E. Goller. A lunch, furnished by the noble and vice-grands, was served. The lodge is in a prosperous condition.

Mrs. C. M. Cunningham, who has been ill, is improving.

Mr. and Mrs. P. E. Vincent of Fort Hill will soon move into the new residence.

idence recently purchased from G. E. Yeagley in the Yeagley addition. Ford Hayes of Markleton was a business visitor in town Saturday. Miss Margaret Hayner has gone to Conneltsville to visit friends.

## CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Try Doan's Kidney Pills. Your neighbors recommended them. Ask your neighbor.

Mrs. C. A. Knight, 408 E. Gibson St., Conneltsville, says: "For many years I was almost crippled up with my back and couldn't find a medicine to help me. The pains in my back seemed to burn like fire and I rapidly lost strength and became weak and tired. I could hardly get about the house to do my work. I had dizzy spells, severe headaches and blurred eye sight. Colds quickly settled in my kidneys and I was simply miserable. I found a cure for it when I read about Doan's Kidney Pills and used them. Two boxes made a well woman of me and I have been entirely free from kidney trouble now for a year." (Statement given March 14, 1914.)

At August 9, 1919, Mrs. Knight added: "Doan's Kidney Pills still give me results whenever I feel a need for a kidney medicine. My opinion of this fine medicine will always be the same."
